

Architech Solutions (ATS) Updates their Corporate Logo and Launches a New Website.

March 21, 2013

Architech Solutions updates the firm's corporate logo to reflect their commitment to **sustainability**.

"We recognize that "sustainability" is synonymous with cost-effectiveness and we are committed to reducing waste in any way possible in order to make the environment a better place to live and work, and through sustainable processes, **save money for our clients** and for the company," said ATS's Greg Johnston, Vice President of Technology. "Our focus is:

- **INNOVATION:** Solutions using state of the art technologies.
- **EFFICIENCY:** Solutions to eliminate wasteful processes or spending.
- **OPPORTUNITY:** Application of critical thinking to project challenges.
- **SUSTAINABILITY:** Engaging your employees to be fully compliant with processes and empowered to make changes to your business operations without the need for expensive external assistance."

The new website www.architechsolutions.com

The new website reflects the firm's continued growth as a recognized leader in providing innovative solutions for Business Process Management (BPM) services, Electronic Medical Records, Government and Commercial Information Technology (IT) strategic consulting, and specialized IT Staffing.
